

One simple system to run your whole business

Agentic ERP & CRM, explained simply

Presented by

Running a business shouldn't feel like juggling

Scattered tools mean lost sales, wrong stock counts and hours wasted. Coree brings it all together.

So what is Coree?

Coree is an agentic ERP and CRM: one platform with 20+ business apps and AI agents that help run your daily work.

ERP

How your business runs

Sales, stock, invoices and accounts

CRM

Who your customers are

Contacts, leads and reminders

AI agent

A helper that does tasks

Answers customers and books appointments for you

What you can do with Coree

Sign app

Sign contracts online,
from anywhere

Know customers

Every customer and
lead in one list

Manage money

Payments and
accounts in one view

Sell and invoice

Make quotes and
invoices in seconds

Track stock

Always know what
you have left

Point of sale

Take payments at the
counter

Sell online

Build a website and
online shop

How Coree keeps everything connected

1

Capture

Record customers, sales and products in one place

2

Connect

Sales, stock, money and people share the same information

3

Automate

Routine tasks and approvals move forward on their own

4

Understand

Clear reports and AI help you make better decisions

When everything is connected, the AI understands your whole business.

Meet the Coree Agent, your smart assistant

A customer asks a question

On Chat, any time of day

1

The Agent checks your database

It looks up your real stock, prices and customer records

2

It replies with real answers

New leads and bookings are saved in your CRM

3

Example chat

Is the blue jacket in stock?

Yes, 5 left at N\$450. Shall I reserve one for you?

Answer pulled from your database

Answers come from your own business data, not guesses.

Built for African businesses

Built in Namibia

Supporting businesses across Africa: Namibia, Botswana, Zambia and Tanzania

Ready for your industry

Retail, hospitality, healthcare, manufacturing and more

15-day free trial

No credit card needed. Try Coree, then add apps as you grow
