

Education deserves a connected future

Schools Information & Data System (SIDS)

- One platform connecting the entire school community
- Built for the realities of Namibian education
- From school administration to AI-powered learning

The challenge we are solving

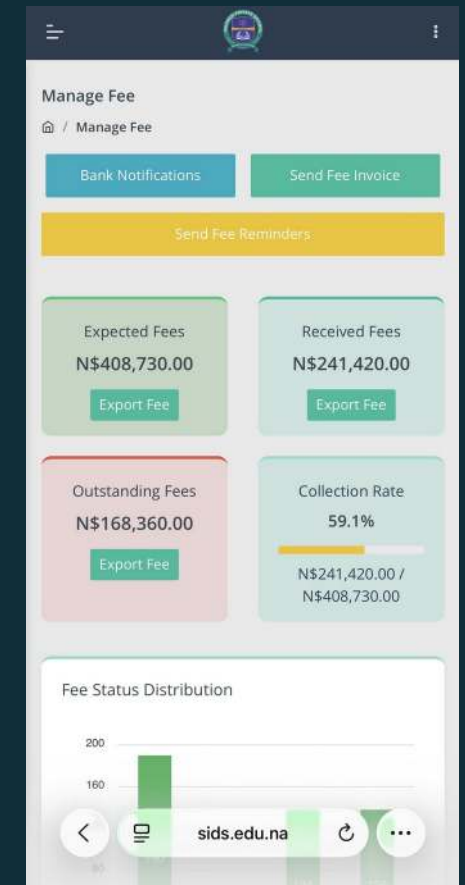

Schools need connected, reliable information

- Paper records and manual administration consume time
- Parents often lack timely information about learning
- Payments, admissions and reports can be fragmented
- Digital access must reach rural and urban schools

One connected education platform

Practical tools already in use

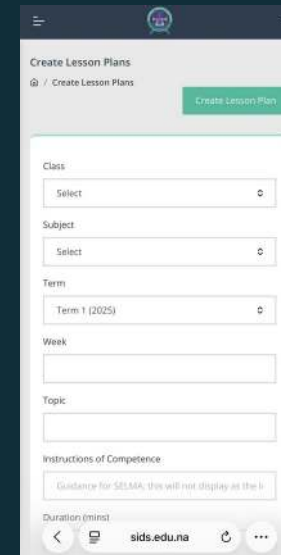

- Learner records, admissions and re-registration
- Attendance, assessments and digital report cards
- Parent communication and school dashboards
- Financial tracking and automated reminders

Innovation you can see working

SELMA AI + smarter school finance

- SELMA AI answers learner questions & helps learners learn at their own pace
- Teachers can create structured lesson plans within 5 minutes
- Bank notifications and payment reconciliation
- Financial dashboards support better decisions

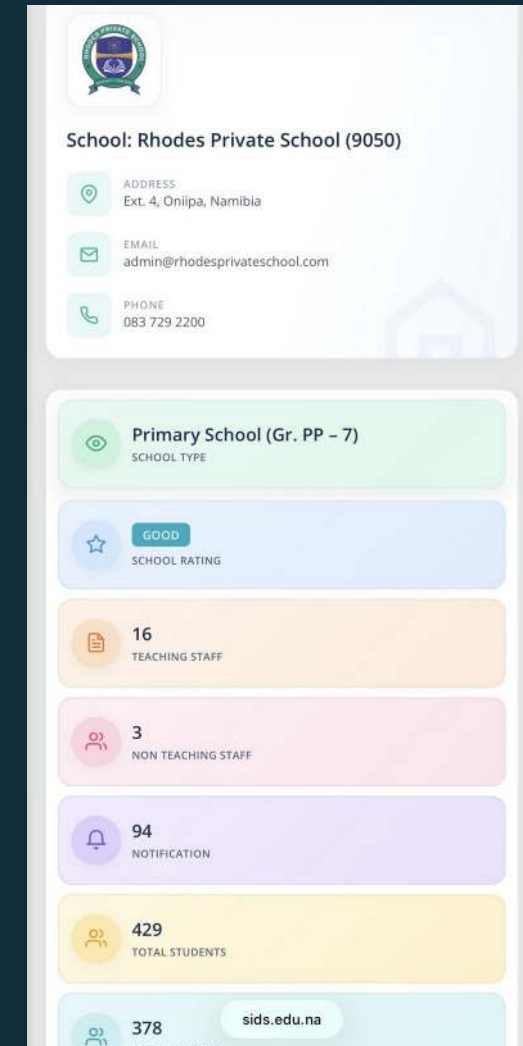

REFERENCE	AMOUNT	STATUS
Aina Johannes 13 Oct 2026	N\$1,100.00	Processed Manually confir
Tuyenkelao Kaluwa 13 Oct 2026	N\$1,100.00	Processed Manually confir
2026011 + 2026766 12 Oct 2026	N\$1,900.00	Pending new Reference deli
Lovisa 12 Oct 2026	N\$800.00	Processed Manually confir
Abed Johanna 12 Oct 2026	N\$1,100.00	Processed Manually confir

Real schools. Real implementation.

Adoption across three Namibian regions

- St Boniface College — Kavango East
- Friendly Private School — Kavango East
- Heroes Private School — Oshikoto
- Rhodes Private School — Oshikoto
- Oshikoto Private School — Oshana

A pathway to national impact

Scaling responsibly, with schools at the centre

- Onboard more schools nation wide and train educators
- Expand SELMA AI and mobile App access
- Seek affordable or zero-rated educational data
- Strengthen digital payments and accountability

Let us connect every Namibian learner

Partner with us to transform education

- Support adoption and implementation
- Collaborate on affordable connectivity
- Help scale local educational innovation
